Glossary of specialties - conditions

How to complete the field "specialties/conditions covered" (description section of the network self-assessment PDF form):

Please refer to the below glossary of terminology for specialties/conditions covered.

Since **this field will be used as a search field**, so that external users - on the external Enpr-EMA resource database- can search for specific networks based on their areas of expertise, **it is really important that each network strictly uses the terminology as mentioned in the below glossary** when completing this field.

If all paediatric specialties/conditions are covered by your network please state "multispecialty" only.

If it appears that your network specialties/conditions are not mentioned in the glossary, please contact the Enpr-EMA secretariat (enprema@ema.europa.eu) and state the specialties/conditions covered which are absent from the glossary.

GLOSSARY

Adolescent medicine

Allergology

Pneumology

Anaesthesia

Cardiology

Clinical Pharmacology

Modelisation, PK

Cystic Fibrosis

Dentistry and Orthodontics

Dermatology

Diagnostics (Histopathology, Radiology, Laboratory, Chemistry)

Official address Domenico Scarlattilaan 6 • 1083 HS Amsterdam • The Netherlands

Address for visits and deliveries Refer to www.ema.europa.eu/how-to-find-us
